French national high school diploma

WORK AND TRAINING HISTORY

July 2015

Summer job at Caves Michel Jacquier
Worker

February 2015

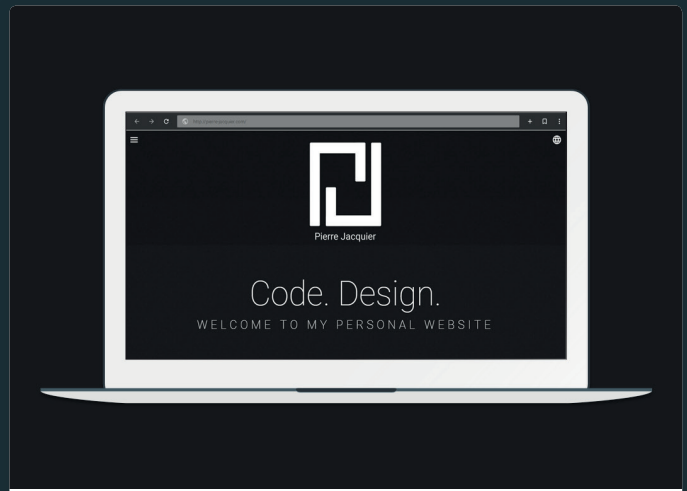

One-month worker internship in V33 (french painting manufacturer)
Worker and machines tutorials writer

ADDITIONAL

Sports

I'm crazy about sports, especially mountain bike, that I practise in competitions since I'm 6. It made me hard-working and focused. I also ski and run during winter.

Technology

My leading hobby is related to my computer. From programming to design, from applications to servers, I've come to learn and use a lot of languages and softwares.

Travel

Going abroad is one of the things that has been inspiring me for a while. I have already been to England, Germany and Italy, but I am really willing to travel further, and improve my languages skills.
