- Spanish : basic communication skills

- CATIA, PTC Creo, MATLAB
- Adobe Illustrator, InDesign
-  C#, C++ (Qt-QML), Java (Android), Python
- HTML, CSS, JS, PHP | Node, React, Angular
- MySQL, MongoDB, GraphQL

ADDITIONAL

-  Crazy about sports, especially mountain biking, that I've practiced since I was 6 in national competitions. Owner of coaching license, I teach to younger riders for my club every saturday afternoon.

-  IT is my other hobby. From programming to design, from applications to servers, I've come to learn and use a wide range of languages and softwares.

-  Really willing to travel. After spending a semester studying in Germany, I look forward to having other foreign experiences and improving my languages skills as much as I can.
